MAGNA INDUSTRIAL SOLUTIONS

All over the world, customers of all types of machines have the same ongoing interests:

TO INCREASE THEIR PRODUCTIVITY AND TO REDUCE OPERATING COSTS.

Premium Quality Magna Tyres offer the optimal combination of tyre performance and purchase price, leading to a low cost price per hour/kilometre and a highly efficient operation.

Magna Industrial Solid Tyres are specially designed to meet the requirements for the most severe working conditions such as in mining, construction and quarries. The broad Tyre Range provides solutions for almost all applications. Magna Tyres Group, which has many references from all over the world, has the experience and ability to offer the solution you require.

MAGNA INDUSTRIAL TECHNOLOGY

- ✓ **Improved traction as a result of specialized tread design**
- ✓ **Heavy duty sidewalls guarantee excellent resistance to damage and impacts**
- ✓ **High-tech casing reduces heat buildup inside the tyre**
- ✓ **Enhanced Tyre performance due to premium Magna rubber compound**

GET ALL THE BENEFITS OF MAGNA TYRE TECHNOLOGY

MAGNA MA600

The Magna MA600 is designed for application in scrap yards, slag steel mills, glass works, dumping sites, waste sites and loading fields and has innovative tread design.

Tyre size	Pattern	Load capacity (kg)				O.D. (mm)	S.W. (mm)	Tread depth (mm)	Rim	Tyre weight (kg)
		Steering wheel (kgs)	Load wheel kg @6 km/h	Load wheel kg @10 km/h	Load wheel kg @25 km/h
